The Medi-Log II has been designed for Vaccine & Blood Fridge Monitoring, and meets the latest Strive for Five Guidelines and WHO Requirements. The unit comes with a Certificate of Calibration and is ready to use out of the box, with parameters preset between 2°C and 8°C. The large LCD display makes twice daily checks a breeze, and with Audible & Visual Alarming, temperature breaches are easily identifiable.

Description

Calibration Certificate Included Audible & Visual Alarm with Security Parameters to ensure breaches are not missed or accidentally stopped or cleared before data is downloaded. No Extra Cradle/Interface Required, Supplied USB Cabled Connection to PC. Free Windows Software (Downloads Below) that will automatically find & detect the Medi-Log II once connected to the PC and allows Graphed & Detailed Reporting in both PDF & Excel format. Parameters & Settings can all be adjusted for application requirements.
