The Skipio SUR15-2D-2 Undercounter 2 Drawer Fridge is designed for efficient storage and convenient access to your food and beverages. With a capacity of 425 liters, this fridge is perfect for smaller restaurants or cafes. The unit features a fan cooling type system and digital temperature control to ensure that the interior temperature remains consistent and at the desired level.

Description

The fridge has a stainless steel exterior that is durable and easy to clean, while the interior is also made of stainless steel with AL sides, back and door liners. The innovative front breathing feature allows the fridge to be installed flush against walls or other equipment without affecting its performance. The fridge also has an LED lamp for better visibility and a hot gas condensate system for efficient and consistent operation. The fridge comes with ergonomically designed doors with easy-grip handles and features two drawers that provide ample storage space. The magnetic door gaskets ensure a tight seal and prevent cold air from escaping, while the high-density polyurethane insulation keeps the interior cool and helps to reduce
