The Skipio SUR18-2D-4 Undercounter Drawer Fridge is a high-quality refrigeration unit designed to fit under counters, providing convenient storage for food and beverages. With a digital temperature control system, you can easily set and maintain the perfect temperature for your products, ensuring they stay fresh and ready to use. The innovative front breathing feature allows you to place the fridge against walls without blocking ventilation, making it a versatile addition to your commercial kitchen or bar.

## Description

The Skipio SUR18-2D-4 Undercounter Drawer Fridge is constructed with a stainless steel exterior and interior, making it durable and easy to clean. It features four drawers and one door, providing ample storage space for your products. The shelves are adjustable, so you can customize the fridge to fit your needs. The high-density polyurethane insulation ensures that the fridge stays cool and reduces energy consumption, helping you save on your energy bills. The fridge uses a fan cooling type system and runs on R-134a refrigerant, making it an efficient and environmentally friendly option. The compressor is 1/4 Hp, providing

reliable cooling power for your products. With its ergonomic design and easy-grip handle, this fridge is easy to use and access. It also features magnetic door gaskets, ensuring a tight seal to keep the cool air inside. Overall, the Skipio SUR18-2D-4 Undercounter Drawer Fridge is a reliable and practical choice for any commercial kitchen or bar.
