Equipped with a high-tech monitor, the Turbo Air freezer continuously monitors the operating conditions to ensure optimal performance. The self-cleaning condenser applied in this model prevents dust accumulation, ensuring consistent cooling efficiency and reducing maintenance needs. It utilizes the environmentally friendly HC(R290) refrigerant, and the hot gas condensate system prevents water overflow while improving energy efficiency.

With a spacious capacity of 1210 liters, this freezer provides ample space for storing a wide variety of frozen items. The inner temperature range of -21° to -12° ensures ideal storage conditions, preserving the quality and freshness of your products. The ventilated cooling system ensures even distribution of cold air throughout the cabinet, while the high-density and CFC-free polyurethane insulation enhance energy efficiency. The adjustable, heavy-duty, PE-coated wire shelves allow for flexible storage configurations to accommodate items of various sizes.
