operating status and temperature conditions, enabling precise control and monitoring. With its three glass doors and top-mounted configuration, this upright fridge offers convenient access to the stored items while also providing an attractive display for customers. The glass doors allow for easy visibility of the contents, making it ideal for showcasing products in commercial settings.

The self-cleaning condenser feature helps prevent dust accumulation, ensuring optimal performance and reducing the need for maintenance. This results in improved efficiency and durability of the refrigeration system. The refrigerator utilizes the HC refrigerant, which is an environmentally friendly option. It also incorporates a hot gas condensate system, which effectively prevents condensation and ensures efficient operation. With a capacity of 1876 liters, this refrigerator provides ample space for storing a large quantity of food items. The inner temperature can be set within the range of 1° to 8°, allowing for flexible storage options.
