Introducing the Turbo Air K-Series KUF12-3D-3-N(HC) Stainless Steel 1 Solid Door 3 Drawer Under Counter Freezer, designed to meet the freezing needs of commercial kitchens. This underbench freezer features a single solid door and three spacious drawers, providing convenient storage for your frozen ingredients and products. With a left-hand side compressor and a front breathing system, this freezer ensures efficient performance and easy installation. The digital temperature control system and high-tech monitor allow precise temperature adjustments and real-time monitoring to maintain optimal freezing conditions. The unit utilizes HC refrigerant and incorporates a hot gas condensate system for efficient operation. With a capacity for one door and three full-size 100mm deep GN pans (1 X 1/1 GN pan + 3 X 1/1 GN pans), this freezer offers versatile storage options. The ventilated cooling system and high-density, CFC-free polyurethane insulation ensure consistent temperatures and energy efficiency.

## Description

Introducing the Turbo Air K-Series KUF12-3D-3-N(HC) Stainless Steel 1 Solid Door 3 Drawer Under Counter Freezer, a versatile and efficient freezing solution designed for commercial kitchens. This underbench freezer combines a spacious storage capacity with convenient drawer access, making it ideal for organizing and preserving a variety of frozen ingredients. Featuring one solid door and three drawers, this freezer offers flexible storage options. The freezer can accommodate one door and three full-size 100mm deep GN pans (1 door + 3 X 1/1 GN pans). Please note that GN pans are not included with the freezer.

Equipped with a digital temperature control system and a high-tech monitor, you can easily adjust and monitor the freezer's temperature for precise storage conditions. The left-hand side compressor and front breathing system allow for easy installation under counters or in compact spaces.

The Turbo Air KUF12-3D-3-N(HC) utilizes HC refrigerant and incorporates a hot gas condensate system, ensuring efficient and eco-friendly operation. The ventilated cooling system promotes even distribution of cold air throughout the unit, while the high-density and CFC-free polyurethane insulation provide excellent thermal insulation, maintaining the desired temperature range of -21 to -12 degrees Celsius.
