The Turbo Air K-Series KUR9-2D-2-N(HC) Stainless Steel 2 Drawer Under Bench Refrigerator is a compact and efficient refrigeration solution designed for commercial use. It is equipped with a digital temperature control system and a left-hand side compressor, ensuring precise and reliable cooling. The front breathing system and hot gas condensate system contribute to its optimal performance. This under-bench fridge features two drawers, providing convenient storage space. It is capable of accommodating two full-size 150mm deep GN-pans or two 1/1 GN pans. The refrigerator offers inner temperature settings ranging from 1 to 8 for flexible cooling options. It utilizes ventilated cooling, high-density, and CFC-free polyurethane insulation to ensure efficient operation and temperature consistency. The stainless steel exterior and interior (SUS 439) guarantee durability and hygiene. Operating on 220V-240V power with a 10-amp plug, the refrigerator has dimensions of 900x700x855mm (including castors) and weighs 84 kilograms. Please note that adjustable shelves are not included, and GN pans and LED lighting are not provided.

## Description

---

The Turbo Air K-Series KUR9-2D-2-N(HC) Stainless Steel 2 Drawer Under Bench Refrigerator is a compact and versatile refrigeration solution designed for commercial kitchens. With two drawers, this underbench fridge offers convenient storage for perishable items while maximizing space efficiency.

Equipped with a digital temperature control system, this refrigerator allows precise regulation of the interior temperature. The left-hand side compressor and front breathing system ensure efficient cooling and ventilation, maintaining optimal storage conditions. The high-tech monitor enables easy monitoring and adjustment of the inner temperature, which can be set between 1 to 8 degrees Celsius.

The Turbo Air K-Series KUR9-2D-2-N(HC) utilizes HC refrigerant and a hot gas condensate system, making it an environmentally friendly and energy-efficient choice. With a capacity of two full-size 150mm deep GN-pans (GN pans not included), it provides storage for a variety of ingredients. The ventilated cooling system ensures even temperature distribution, while the high-density and CFC-free polyurethane insulation help maintain the desired temperature effectively.
