and efficient refrigeration solution designed for commercial kitchens. With two solid doors, this underbench unit provides separate compartments for both fridge and freezer storage, allowing you to conveniently store and access a variety of perishable items.

Equipped with a dual digital temperature control system, this refrigerator offers independent temperature regulation for each compartment. The left-hand side compressor and front breathing system ensure efficient cooling and ventilation, maintaining optimal storage conditions. The high-tech monitor allows easy monitoring and adjustment of the inner temperatures, with the freezer compartment ranging from -21 to -12 degrees Celsius and the fridge compartment ranging from 1 to 8 degrees Celsius.

The Turbo Air K-Series KURF15-2-N(HC) utilizes HC refrigerant and a hot gas condensate system, making it an environmentally friendly and energy-efficient choice. With a total capacity of 191L for the freezer compartment and 171L for the fridge compartment, it provides ample storage space. The ventilated cooling system ensures even temperature distribution, while the high-density and CFC-free polyurethane insulation effectively maintain the desired temperatures.
