# The Fresh Refrigeration FTM-23FS High Top Mount Upright One Door 560L Freezer

is a cutting-edge refrigeration solution designed to meet the demands of commercial kitchens and food storage facilities. Its advanced SYSTEM features include a digital temperature control and monitoring system, ensuring precise temperature management. The hot gas condensate system efficiently regulates humidity levels, while the automatic evaporation and defrost system eliminates the need for manual maintenance. These features collectively contribute to hassle-free operation and consistent performance.

Built to withstand the rigors of a busy kitchen, this freezer boasts a strong and durable cabinet finish. Its top, front, sides, and doors are constructed from stainless steel, ensuring longevity and easy cleaning. The back and bottom are made of galvanized steel for added durability. The modern one-piece grill design enhances both aesthetics and sturdiness, while the PE-coated wire shelves provide a reliable storage solution for your products. This freezer is not only functional but also aesthetically pleasing, making it a valuable addition to any commercial kitchen.

Temperature control is paramount in food storage, and the Fresh Refrigeration FTM-23FS excels in this aspect. The freezer compartment maintains product temperatures below  $-18^{\circ}\text{C}$ , preserving frozen goods with precision. Whether you need to store fresh ingredients or frozen products, this appliance offers the ideal conditions to keep your items in optimal condition.

## Key Features:

- Digital temperature control & monitoring for precise temperature management
- Hot gas condensate system for efficient humidity regulation
- Automatic evaporation & defrost system for hassle-free maintenance
