The Fresh Refrigeration KTM-25RS2 Top Mount Upright Two Door 480L Fridge is the epitome of modern refrigeration excellence. Equipped with a state-of-the-art digital temperature control and monitoring system, it ensures precision in maintaining the perfect storage environment for your goods. The hot gas condensate system and automatic evaporation and defrost system make it an efficient and hassle-free choice for any commercial kitchen. Its robust and durable cabinet finish features stainless steel on the top, front, sides, and doors, while the galvanized steel back and bottom enhance its structural integrity. The modern one-piece grill and PE-coated sturdy wire shelves not only offer a sleek appearance but also provide practicality and ease of cleaning. With a temperature range of 32°C and 41°C (0°C and 5°C), this refrigerator ensures optimal freshness. Its user-friendly design includes auto-closing doors with stoppers, easy-grip handles, and a magnetic door gasket for effortless access and maintenance. Moreover, the inclusion of a door sensor with a magnetic switch and door locks adds an extra layer of security, making it a top choice for commercial refrigeration needs.

## Description

The Fresh Refrigeration KTM-25RS2 is a top-of-the-line, high-capacity fridge that boasts a multitude of features designed to meet your commercial refrigeration needs. With a spacious 480L capacity and a two-door design, this upright refrigerator is perfect for businesses that require ample storage space for perishable goods. Its sleek and modern stainless steel finish on the top, front, sides, and doors not only adds a touch of elegance to your workspace but also ensures its durability, making it resistant to wear and tear.

Equipped with advanced technology, the KTM-25RS2 offers precise temperature control and monitoring through its digital system. It maintains a consistently low temperature range of 32°C and 41°C (0°C and 5°C), ensuring your products stay fresh and safe. The fridge also features an automatic evaporation and defrost system, eliminating the need for manual maintenance. Additionally, the auto-closing doors with sturdy handles and magnetic door gaskets make it user-friendly and efficient, providing convenience in everyday operations.

The durability of this refrigerator extends beyond its exterior, with a galvanized steel finish on the back and bottom, along with PE-coated sturdy wire shelves that can withstand the rigors of a commercial kitchen. The hot gas condensate system further enhances its efficiency, while the door pressure release device and door locks ensure the safety and security of your valuable inventory. Whether you run a restaurant, catering service, or any food-related business, the Fresh Refrigeration KTM-25RS2 is the ideal choice for reliable, high-performance refrigeration.

Key Features:

- Digital temperature control & monitor for precision.
- Hot gas condensate system for enhanced efficiency.
- Automatic evaporation & defrost system for hassle-free maintenance.
- Stainless steel finished top, front, sides, and doors for durability and aesthetics.
- Galvanized steel finished back and bottom for added strength.
- PE coated sturdy wire shelves for organizational convenience.
- Refrigerator holds product temperature 32°C and 41°C (0°C and 5°C).
- Auto-closing doors with stopper for ease of use.
- Magnetic door gasket for easy cleaning or replacement.
- Door sensor with magnetic switch and door locks for security (Standard).
