Fresh Refrigeration FDW-06RF, a versatile and robust cooling solution designed to meet all your refrigeration needs. With its advanced digital temperature control and monitoring system, hot gas condensate technology, and automatic evaporation/defrost system, maintaining precise temperatures has never been easier. Crafted for durability, this unit boasts a stainless steel finish on the top, front, sides, and doors, while galvanized steel ensures strength at the back and bottom. Inside, the PE-coated sturdy wire shelves provide ample storage space. What sets it apart is its adaptability; it can seamlessly switch between a freezer and a refrigerator, offering temperature adjustment from a chilly -9.4°F to a crisp 41°F (-23°C~5°C). The heavy-duty stainless steel telescoping drawer slides with roller bearing wheels can support up to 88 pounds (40kg) of frozen or refrigerated goods, making it a versatile and dependable addition to any kitchen.

# Fresh Refrigeration FDW-06RF 600mm Wide Multi Temperature Drawer / Single Door Freezer, 91L

the ultimate solution for all your refrigeration needs. This innovative system boasts a range of features designed to provide you with precise control over your storage environment. With its digital temperature control and monitoring system, you can easily set and monitor the perfect temperature for your goods. The Hot gas condensate system ensures efficient cooling, while the automatic evaporation and defrost system simplifies maintenance.

Built to last, the cabinet of the FDW-06RF is crafted with durability in mind. Its stainless steel finish on the top, front, sides, and doors not only adds a touch of sophistication but also enhances its resistance to wear and tear. Meanwhile, the galvanized steel back and bottom guarantee structural strength. Inside, you'll find PE coated sturdy wire shelves, providing ample space for your items. One of the standout features of this refrigerator is its temperature versatility. You can seamlessly convert it from a freezer to a refrigerator, and the temperature is adjustable within a broad range from -9.4°F to 41°F (-23°C to 5°C). This flexibility makes it perfect for various storage needs. The heavy-duty stainless steel drawers equipped with telescoping drawer slides and roller bearing wheels can handle weights of up to 88 pounds (40kg), ensuring your items are not only well-preserved but also easily accessible. Upgrade your refrigeration game with the Fresh Refrigeration FDW-06RF and enjoy superior performance and durability.

- Precise digital temperature control and monitoring
- Efficient hot gas condensate system
- Automated evaporation and defrost system
- Insulated stainless steel covers with a 70-degree opening angle, providing thermal protection
- Dispenser bar locking mechanism to prevent product spills
- Stainless steel finish on the top, front, sides, and doors
- Galvanized steel finish on the back and bottom for durability
