Introducing the BW5 Blanket Warmers, an Australian-designed and locally built solution tailored to meet the specific needs of hospitals and nursing homes. This state-of-the-art blanket warmer cabinet features a fan-forced heating system equipped with a precise microprocessor temperature controller, guaranteeing a consistent and stable temperature across the entire cabinet by facilitating efficient air circulation. This ensures that all blankets and linens are gently heated to the optimal temperature. Safety is paramount, thanks to the integrated high-temperature alarm system, which prevents overheating and maintains a secure and comfortable environment for patients and residents at all times.

## Description

# Introducing the BW5 Blanket Warmers

, an Australian-designed and manufactured marvel that caters to the unique needs of healthcare facilities such as hospitals and nursing homes. This blanket warmer cabinet boasts a fan-forced heating system, expertly engineered to maintain a consistent and comfortable temperature throughout the entire cabinet. By efficiently circulating the air, it ensures that all blankets and linens are gently warmed to perfection. What sets the BW5 apart is its microprocessor temperature controller, providing precise temperature control and utmost reliability.

Safety is paramount, thanks to the overheating alarm system that guards against excessive temperatures, guaranteeing the blankets are consistently maintained at a safe and comfortable warmth. The BW5's thoughtful construction includes double-glazed doors, a sleek stainless steel interior and exterior, and chrome-plated shelves, reflecting both durability and aesthetics. With a user-friendly digital display featuring built-in alarms, this Australian-made gem is the epitome of quality and convenience, offering an essential solution to keep patients snug and cozy.

Key Features of the BW5 Blanket Warmers:

- Fan-forced heating system for even warmth distribution
- Overheating alarm system for added safety
- Double glazed doors for insulation and visibility
- Stainless steel interior and exterior with chrome-plated shelves for durability and cleanliness
- Microprocessor control for precise temperature management
- Digital display with built-in alarms for ease of use and monitoring
- Proudly Australian Made, ensuring top-quality craftsmanship and support.
