The Nuline HF200 Series Spark Safe Freezer is a cutting-edge cold storage solution designed for safety and convenience. Equipped with static refrigerated shelves and a reliable door lock, this freezer ensures the secure storage of temperature-sensitive materials. Its digital display comes with built-in alarms, making it easy to monitor and maintain the ideal storage conditions. With a bottom-mounted system and a Hi/Lo readout feature, this freezer maximizes usability and efficiency. Moreover, the inclusion of remote alarm contacts further enhances its reliability, making it a top choice for those seeking a spark-free and secure freezing solution.

Description

The HF200 Series Spark Safe Freezer

is a highly specialized and indispensable unit designed for use in laboratories, pharmacies, and hospitals. With a focus on safety and precision, this freezer offers a reliable solution for storing sensitive materials. Its static refrigerated shelves ensure a consistently cold interior, making it perfect for preserving the integrity of temperature-sensitive specimens and medications. What truly sets the HF200 Series apart is its spark-free interior, making it the ultimate choice for the storage of volatile and flammable products. In environments where the slightest spark could lead to catastrophic consequences, this freezer provides peace of mind. Whether it's in a research lab, a pharmacy stocking flammable chemicals, or a hospital storing critical medications, the HF200 Series Spark Safe Freezer offers the security and functionality needed to protect valuable assets and ensure the safety of all those in the vicinity.

Key Features of the HF200 Series Spark Safe Freezer:

- Audible alarm for added safety
- Static refrigerated shelves for convenient storage
- Door lock for security
- Digital display with built-in alarms
- Bottom-mounted system for efficient cooling
- Hi/Lo readout for temperature monitoring
- Remote alarm contacts for remote monitoring and alerts.
