Introducing the "MLS125 Spark Free Laboratory Refrigerator" – a cutting-edge solution designed to meet the most stringent laboratory requirements. With a static refrigeration system that ensures spark-free operation, this refrigerator offers both safety and reliability. Its voltage-free connection, coupled with a door lock and door ajar alarms, provides secure storage for sensitive materials. The MLS125 goes above and beyond with features like automatic condensate water disposal, a battery backup for the controller, and a digital display equipped with built-in alarms for easy monitoring. With hi/lo readouts, this refrigerator is a versatile and dependable addition to any laboratory setting.

The MLS125 Spark Free Laboratory Refrigerator

is a top-tier cooling solution designed with utmost precision to meet the stringent requirements of pharmacies, laboratories, and hospitals. Its spark-free interior is a key feature that makes it the perfect choice for storing volatile and flammable products, ensuring the safety of the environment and the people working in these facilities. This refrigerator is not only reliable but also secure, thanks to its lockable doors, providing an added layer of protection for valuable or sensitive items. Additionally, its voltage-free alarm connection offers peace of mind by promptly alerting users to any potential issues, ensuring the preservation of temperature-sensitive specimens and medicines. With the MLS125, you can trust in a refrigeration unit that combines safety, security, and functionality to cater to the unique needs of healthcare and research environments. The MLS125 Spark Free Laboratory Refrigerator is a versatile and essential asset for maintaining the integrity of volatile substances in a controlled and safe environment. Its combination of spark-free interiors, lockable doors, and voltage-free alarm connection makes it an indispensable tool in settings where precision, security, and safety are paramount.

Key Features of the Nuline MLS125 Spark Free Laboratory Refrigerator:

- Static refrigeration system
- Voltage free connection
- Door lock
- Door ajar alarms
- Automatic condensate water disposal
- Battery backup for controller
- Digital display with built-in alarms
- Hi / Lo read out
