Introducing the "NLM700/1 Series Laboratory Refrigerator," a top-mounted system designed to meet the diverse needs of laboratory environments. Crafted with precision, this refrigerator boasts an E-Glass and heated cabinet facia that effectively curbs condensation up to 80% relative humidity. Its advanced features include interior LED lighting for optimal visibility, automatic water disposal for hassle-free maintenance, a digital display with built-in alarms to ensure the safety of your precious samples, and an impressive operating ambient temperature capability of 40°C. The Hi/Lo readout further enhances its user-friendly interface, making it a dependable choice for your laboratory refrigeration needs. Proudly Australian-made, this refrigerator guarantees quality, performance, and reliability.

Description

The NLM700/1 Series Laboratory Refrigerator

designed and manufactured in Australia, stands as a prime choice for laboratory, pharmacy, and hospital settings. With its spacious interior featuring five rows of shelves behind each door, this refrigerator provides ample storage space to accommodate the unique needs of these professional environments. The cabinet boasts a sleek and durable finish in Colourbond, ensuring both functionality and aesthetics. Moreover, the refrigerator is equipped with user-friendly digital controllers that simplify temperature management, making it a seamless addition to any facility, where precise and reliable temperature control is paramount.

The NLM700/1 Series combines the benefits of robust Australian engineering with a thoughtful design that caters to the specific demands of laboratory, pharmacy, and hospital applications. Its spacious shelving and reliable digital controllers make it an essential asset for organizations seeking to maintain optimal storage conditions for temperature-sensitive items. Whether safeguarding research samples, medications, or critical medical supplies, this refrigerator offers a dependable and efficient solution to meet the stringent requirements of these professional environments.
