Commercial Fridge and Freezer Sales Australia. All product images are provided for illustration purposes only. All specifications are subject to manufacturer changes without notice, so please check on the manufacturer's website for current product data.

The Nuline NLMF1400/2 is a remarkable Two Glass Door Laboratory Freezer

with a generous capacity of 1400 Litres. Part of the NLMF1400/1 Series, this laboratory freezer is a testament to Australian design and manufacturing excellence, making it the perfect choice for a wide range of scientific and medical applications in laboratories, pharmacies, and hospitals. Its spacious interior features five rows of shelves behind each of the two glass doors, providing ample storage space for a variety of laboratory and medical supplies. The entire cabinet is elegantly finished in Colorbond, ensuring durability and a clean, professional appearance.

One of the standout features of the NLMF1400/2 is its advanced cooling system, which employs fan-forced cooling to maintain a stable and consistent temperature throughout the entire unit. This capability is crucial for protecting valuable inventory from temperature fluctuations that could compromise the integrity of sensitive samples and materials. Additionally, the freezer is equipped with user-friendly digital controllers, making it easy to set and monitor the desired temperature levels. The Nuline NLMF1400/2 is the epitome of reliability and convenience, making it an indispensable asset for any laboratory, pharmacy, or hospital seeking top-tier refrigeration solutions.

Key Features of Nuline NLMF1400/2 Two Glass Door Laboratory Freezers:

- Clear digital display and included alarms
- Automatic water drainage system
- Ten shelves coated with PVC
- Interior and exterior finished in white Colorbond
- Stainless steel interior flooring
- The door can be either glass or solid, with the option for a door lock
- Equipped with castors for easy mobility
