Austral by Hussmann EE Max BV770W VS, a groundbreaking addition to the commercial display fridge market. This single vertical glass door chiller offers a remarkable fusion of strength, efficiency, and affordability. With cutting-edge features like natural refrigerant and inverter compressor technology, it maximizes energy consumption while maintaining optimal performance. Boasting 728 liters of display space, it provides ample room to showcase products, enhancing merchandising and driving sales. The fridge's ergonomic design ensures easy product access, while adjustable shelving allows for customizable displays. Energy-efficient LED lighting adds visual impact, while its low total energy consumption helps save on costs. Tested for product temperature compliance, it guarantees quality and reliability. With high-quality construction and a small footprint, it maximizes display area without compromising on durability. Environmentally sustainable, it uses natural, low GWP refrigerant, reflecting a commitment to eco-friendliness. Elevate your brand and make a lasting impression with the EE Max BV770W VS.

Description

Introducing the Austral by Hussmann BV770 W VS - Single Vertical Glass Door Chiller

, the pinnacle of strength, efficiency, and affordability in commercial refrigeration. Meet the EE Max BV770W VS, a game-changer in the realm of durability and power economy. Engineered with state-of-the-art natural refrigerant and inverter compressor technology, this fridge maximizes efficiency while minimizing power consumption, setting new benchmarks in energy efficiency. With an expansive 728 liters of eye-level display space, the EE Max BV770W VS elevates your merchandising efforts, offering a captivating showcase for your products. Its ergonomic design ensures easy access to items, while adjustable shelving accommodates diverse merchandise configurations. Enhanced by energy-efficient LED lighting, this chiller not only reduces energy costs but also ensures a visually impactful display that leaves a lasting impression on customers. Elevate your brand and redefine customer experiences with the Austral by Hussmann BV770 W VS. Tested for product temperature compliance and constructed with high-quality materials, this fridge combines durability with environmental sustainability, utilizing natural, low GWP refrigerants. With a small footprint and maximized display area, it's the perfect solution for businesses looking to optimize space while enhancing product visibility and accessibility. Experience the fusion of strength, efficiency, and affordability with the EE Max BV770W VS, your gateway to unparalleled merchandising excellence.

Features:

- LED lighting
- Digital controller display fitted
- 5 display levels plus base
- Powder coated galvanized steel construction
- Self-contained, plug and play installation
- Ventilated condenser
- Lockable castors
- Automatic condensate removal
- Maximum operating temperature 40°C
- Bottom mounted refrigeration system
- Colour: Black internal, Black external
- Refrigerant: R290
- Cord Length 2100mm
- Electrical 220-240V 10A

Additional Information

Country of Manufacture	Australia
External Colour	Stainless Steel
Brand	Hussmann
Model	BV770-W-VS
Temperature Operating Range C	-1°C to +5°C
Refrigerant	R290
External Dimensions (mm)	800mm(W)x732mm(D)x2190mm(H)
Internal Dimensions (mm)	720mm (W) x 574mm (D) x 1685mm (H)
Capacity/Volume	Volume = 728 Liters
Power Information	10A
Interior Lighting	Yes
Defrost Auto or Manual	Automatic
