Introducing the Atosa BD-155K Solid Door Chest Freezer, a reliable and efficient refrigeration solution ideal for various commercial settings including restaurants, cafes, bars, supermarkets, and more. With a refrigeration volume of 155 liters, this chest freezer offers ample space to store a variety of perishable goods while maintaining optimal temperatures for food preservation. Featuring a single solid door design, the Atosa BD-155K measures 740mm in width, 561mm in depth, and 822mm in height, making it suitable for underbench placement in kitchens and food preparation areas. Weighing 33 kilograms, this freezer is designed for durability and longevity in demanding environments.

Equipped with a dual temperature function, the Atosa BD-155K allows for temperature adjustments ranging from -20°C to -17°C or 0°C to 10°C, providing versatility to accommodate different storage needs. With 70mm thick insulation and a manual defrost mechanism, this freezer ensures efficient cooling performance while minimizing energy consumption. The mechanical control system allows for easy operation and temperature management. Each unit comes with one standard basket for organized storage of smaller items. With a power consumption of 85W and energy usage of 0.57kWh/24H, the Atosa BD-155K balances performance and efficiency, making it an essential asset in any commercial kitchen or food service establishment. Whether in restaurants, supermarkets, or hospitality venues, the Atosa BD-155K Solid Door Chest Freezer delivers reliable performance and superior cooling capabilities to meet the demands of modern food storage requirements.
