Atosa BD-550 Solid Door Chest Freezer, 450 L

ATOSA-BD-550 Solid Door Chest Freezer, featuring a single door design and a generous refrigeration volume of 450 liters, making it an ideal choice for commercial establishments seeking efficient storage solutions. With dimensions measuring 1530mm in width, 755mm in depth, and 840mm in height, this freezer provides ample space while maintaining a sturdy and durable construction with a weight of 73kg. Designed for underbench installation, it operates effectively in ambient temperatures of up to 43°C. The freezer is equipped with 70mm thick insulation, ensuring optimal temperature regulation and energy efficiency. It features manual defrost functionality and a defrost water drain hole for easy maintenance. The recessed handle on the front side offers convenient access, while the stainless steel top adds to its durability and aesthetic appeal. Castors are included for easy mobility, providing flexibility in placement within your establishment. Environmentally friendly and designed for low energy consumption, the ATOSA-BD-550 Solid Door Chest Freezer offers reliable performance and efficient storage for your commercial needs.

Commercial Fridge and Freezer Sales Australia. All product images are provided for illustration purposes only. All specifications are subject to manufacturer changes without notice, so please check on the manufacturer's website for current product data.

Introducing the ATOSA-BD-550 Solid Door Chest Freezer, a robust and energy-efficient refrigeration solution designed for commercial use in various settings including restaurants, supermarkets, and food production facilities. With a generous refrigeration volume of 450 liters, this chest freezer provides ample storage space for a wide range of perishable goods while maintaining optimal temperatures for food preservation. Featuring a single solid door design, the ATOSA-BD-550 measures 1530mm in width, 755mm in depth, and 840mm in height, making it suitable for underbench placement in kitchens and food preparation areas. Weighing 73 kilograms, this freezer is built for durability and longevity in demanding environments.

Equipped with 70mm thick insulation, the ATOSA-BD-550 ensures efficient cooling performance while minimizing energy consumption, resulting in lower operating costs and environmental impact. The manual defrost feature and defrost water drain hole make maintenance and cleaning hassle-free, allowing for smooth operation and optimal hygiene. Featuring a recess handle on the front side for easy access, the ATOSA-BD-550 is designed with user convenience in mind. The inclusion of castors provides mobility and flexibility, allowing for convenient relocation within the workspace as needed. Constructed with a stainless steel top, the ATOSA-BD-550 offers durability and resistance to corrosion, ensuring long-term reliability in commercial environments. With its low energy consumption, environmentally friendly design, and practical features, the ATOSA-BD-550 Solid Door Chest Freezer is the perfect solution for businesses seeking efficient and reliable refrigeration for their storage needs.
