

Atosa BD-650 Solid Door Chest Freezer, 560 L

Atosa BD-650 Solid Door Chest Freezer, a robust solution designed for commercial settings such as restaurants, cafes, bars, supermarkets, and more. With a single door design and a spacious refrigeration volume of 560 liters, this freezer offers ample storage space for various perishable items. Measuring 1810mm in width, 755mm in depth, and 840mm in height, it provides generous storage capacity while maintaining a sturdy construction with a weight of 82kg. Ideal for underbench installation, it operates effectively in ambient temperatures of up to 43°C. The freezer is equipped with 70mm thick insulation for efficient temperature regulation and low energy consumption. It features manual defrost functionality and a defrost water drain hole for easy maintenance. The recessed handle on the front side ensures convenient access, while the stainless steel top adds durability and aesthetic appeal. Castors are included for easy mobility, allowing flexible placement within your establishment. Environmentally friendly and designed for reliability, the Atosa BD-650 Solid Door Chest Freezer offers efficient storage solutions for commercial kitchens and foodservice environments.

Description

Introducing the Atosa BD-650 Solid Door Chest Freezer, a versatile and energy-efficient refrigeration solution designed to meet the demands of commercial establishments such as restaurants, cafes, supermarkets, and food production facilities. With a spacious refrigeration volume of 560 liters, this chest freezer offers ample storage capacity for a variety of perishable goods while ensuring optimal temperature maintenance for food preservation. Featuring a single solid door design, the Atosa BD-650 boasts dimensions of 1810mm in width, 755mm in depth, and 840mm in height, making it suitable for underbench placement in kitchens and food preparation areas. With a weight of 82 kilograms, this freezer is sturdy and durable, built to withstand the rigors of daily commercial use.

Equipped with 70mm thick insulation, the Atosa BD-650 ensures efficient cooling performance while minimizing energy consumption, resulting in cost savings and reduced environmental impact. The manual defrost feature and defrost water drain hole facilitate easy maintenance and cleaning, enhancing operational efficiency and hygiene standards. Designed with user convenience in mind, the Atosa BD-650 features a recess handle on the front side for easy access, while castors are included for added mobility and flexibility within the workspace. Constructed with a stainless steel top, the Atosa BD-650 combines durability with resistance to corrosion, ensuring long-term reliability in commercial environments. With its low energy consumption, environmentally friendly design, and practical features, the Atosa BD-650 Solid Door Chest Freezer is the ideal solution for businesses seeking efficient and reliable refrigeration for their storage needs.
