Pinnacle -20 1 Solid Door S Series Laboratory Upright Freezer 66L

The Pinnacle static cooled freezers, meticulously designed in Australia, are purpose-built for storing items that require a non-fan forced cooling environment. These static freezers are ideal for maintaining the quality and longevity of your stored items.

Available in 600L and 630L capacities, these freezers offer ample storage space to cater to your specific needs. Static Freezers are also available in [600L](#) and [630L](#).

Description

Pinnacle -20 1 Solid Door S Series Laboratory Upright Freezer 66L

- High-Efficiency Insulation: Reduces running costs and improves internal conditions,
- LED Lighting: Offers long-life operation and reduces heat load inside the cabinet,

Commercial Fridge and Freezer Sales Australia. All product images are provided for illustration purposes only. All specifications are subject to manufacturer changes without notice, so please check on the manufacturer's website for current product data.

- Door Lock: To give product security,
- Digital Controller: Digital controller with minimum and maximum temperature logging,
- Cable Port Hole: For remote data loggers and probes,
- Castors: Large castors make moving the refrigerator easier,
- Coated Wire Shelves: Open wire design to improve air circulation around the product,
- Remote Alarm Contacts (BMS): This feature is primarily used by facilities that are not staffed 24 hours a day. The normally closed set of contacts will open if there is a high-temperature, low-temperature alarm, or power failure. Most often these alarm contacts can be hooked into the existing alarm system within the facility making it very cost-effective.
